

On Monday 8th September the Year One class joined with Kindy Blue to do a language activity. Firstly, the Year Ones chose a book to read to the kindy children – they tried to find one on the environment. After reading the book the children chose activities to do about the characters of the book. The children had some very interesting discussion on what they could do and how to do it together. They choose from model making, with clay or play dough, painting, chalk or crayon drawing and making models with boxes and other construction materials. It was a great experience and all children should be proud of their efforts. They worked together in a very co-operative manner.
